

Lara was a recipient of the 2016 Rev. James G. Anderson Award with the Portland ACS section. She completed her undergraduate studies at Willamette University in 2017, receiving her B.A. in chemistry with a German minor. The same year, she moved to Ann Arbor, MI to start her doctoral studies at University of Michigan through the Program of Chemical Biology. She is currently a second-year graduate student working in a biocatalysis lab headed by Alison Narayan. Both inside and outside of the lab, Lara stays busy as a trainee through the Cellular Biotechnology Training Program and a founding member and the Director of Student Affairs of the first student chapter of the International Chemical Biology Society.
